The Seas is a Kentucky-based four-piece rock band formed in 2009. They've developed a unique sound that is powerful and emotional, crafting their own premium blend of metal, alternative, progressive and industrial genres. Taking inspiration from such bands as Nine Inch Nails, Tool and Deftones, their songs feature a heavy yet melodic style layered with textural and atmospheric elements.

On August 30, 2011, The Seas released their debut album, "A Separation," which carefully weaves moody and melancholy tones with progressive riffs and odd time signatures into a refreshing and accessible style that defines The Seas signature sound. The Seas follow-up release, "Give up the Ghost" emanates The Seas distinctive sound, but sets itself apart with matured, polished songwriting and standout performances.

On stage, the band delivers an authentic, high-energy performance with every ounce of the layered, dimensional sound heard on their albums. Be sure to follow The Seas on Facebook at <https://www.facebook.com/theseasmusic> or visit theseasmusic.com for show announcements, new releases, and updates.

"Give Up The Ghost is a full on tour de force... exceptional songwriting and raw emotion."

The Music Guy - Album Review

"One of the best rock voices I have heard in a long time... this album is AMAZING!"
