THE SEAS

Rock / Metal / Alternative / Progressive / Industrial

With a unique sound that is powerful and emotional, Kentucky-based rock 4-piece, The Seas, have crafted their own premium blend of metal, alternative, progressive and industrial genres. Their heavy yet melodic style is layered with textural and atmospheric elements, carefully weaving moody and melancholy tones with progressive riffs and odd time signatures – creating a refreshing and accessible style that defines their signature sound.

On stage, the band delivers an authentic, high-energy performance with every ounce of the layered, dimensional sound heard on their albums.

"A full on tour de force... exceptional songwriting and raw emotion."

The Music Guy

"One of the best rock voices I have heard in a long time... "
